

# MALHEUR COUNTY BRH REZONING APPLICATION AFFIDAVIT

RE: Schaffeld Family LLC

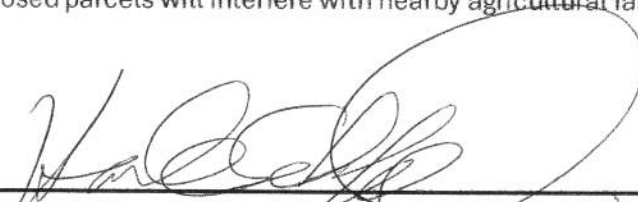

Tax lot 800 Map 6855

Tax lot 900 Map 6849

Neither proposed property parcel has ever been employed for farm use. All photograph of the property show that both parcels retain their original sage brush and other vegetation as God made them.

Both parcels are of inferior soil type as shown by the soils map, have no water rights and are primarily steep slopes. All of these factors make them unsuitable for profitable farming.

The driveways nor any other activities as is customary to primary residential living at these proposed parcels will interfere with nearby agricultural farming activities.
